PRESS RELEASE
12 November 2026

MESteel, the Middle East's steel directory since 1999, relaunches mesteel.com with a new marketplace, weekly steel prices and a mobile app on the way

Rebuilt from the ground up, the platform connects steel buyers and sellers across the UAE, Saudi Arabia, the GCC and the wider Middle East

The new mesteel.com

Dubai, United Arab Emirates — 12 November 2026 — MESteel, the B2B steel directory that has linked steel buyers and sellers in the Middle East since 1999, today announced the relaunch of mesteel.com. The new platform has been rebuilt from the ground up for faster search, a cleaner design and a stronger focus on trade between companies in the region.

The new mesteel.com lists 1,989 steel companies from 63 countries. Buyers can find suppliers by product, country and business activity, from mills and stockists to fabricators, contractors and traders. Companies can post what they want to buy or sell on the new Marketplace and reach the right counterparts directly.

"For more than 25 years, MESteel has helped steel companies in the Middle East find each other," said George, Business Development Manager of MESteel. "The new mesteel.com keeps what our members value — a trusted regional directory — and adds the tools today's buyers expect: a live marketplace, weekly price trends, regional steel news and a mobile app that is coming soon."

What's new on mesteel.com

- **Companies directory** — search by product, country and activity, with dedicated pages for each product, country and major city.
- **Who buys / Who sells** — see which companies buy or sell each steel product.
- **Marketplace** — post and browse buying and selling offers and inquiries.
- **Steel prices** — weekly price series and charts for key products such as rebar, billets, hot rolled coil and scrap.
- **Steel news** — daily news on the steel industry in the GCC and the Middle East.
- **Product information** — 126 steel products with sizes, standards, grades and buying tips.
- **Info and tools** — steel grade equivalents, international standards, Incoterms, HS codes, steel statistics, and weight, unit and steel calculators.
- **Many languages** — the site can be read in Arabic, Chinese, Hindi, Turkish, Russian and other languages.
- **Mobile app** — MESteel apps for iPhone and Android are coming soon.

Existing members can sign in with their current email and password, update their company profile and start posting on the Marketplace straight away. New companies can register their listing at mesteel.com.

About MESteel

MESteel (mesteel.com) is a B2B steel directory and marketplace for the Middle East, based in Dubai, United Arab Emirates. Online since 1999, it links steel buyers and sellers across the UAE, Saudi Arabia, the GCC and the wider region, and publishes steel news, prices, events and jobs for the regional steel industry.
